2 About True

4 Back Bar Refrigerators

8 Direct Draw Beer Dispensers

The industry's most complete refrigeration source.
True.

True is the world's leading supplier of quality commercial refrigeration. Founded over 70 years ago in Missouri, USA, True continues to flourish around the globe by offering the best possible environment to store your food products.

True, Your Energy Efficient Future... Naturally

Hydrocarbon has less than **THREE** Global Warming Potential (R134A = 1,430)

Naturally Occurring Refrigerant = Environmentally Friendly

Up to 15% more efficient than R134A and R404A

ZERO Ozone Depletion Potential

Sustainability

Over 70 Years of commercial refrigeration focus have enabled True to become experts in the design and development of our systems. While energy efficiency has always been part of our design process, we continue to utilize new technologies to improve our systems to be the most efficient in the industry, without sacrificing the performance that ultimately provides food safety for our customers throughout the World.

True continually searches for environmentally friendly components and processes to help reduce our own and our customers' carbon footprint. Initiatives include offering a natural refrigerant and CFC free, polyurethane, high-density insulation that provides unparalleled strength, rigidity, and increase to an already industry-exceeding insulation factor, with zero ozone depletion potential (ODP) and zero global warming potential (GWP).

Energy efficiency without compromise.

Many True products have qualified for inclusion on the ECA Energy Technology list.

Back Bar Refrigerators

True's back bar refrigerators are designed with enduring quality that protects your long-term investment.

Manufactured using the highest quality materials and components, True back bar refrigerators provide the most consistent temperature, lower utility costs and exceptional food safety delivering the best value.

With rugged construction, attractive appearance, and the most advanced and robust refrigeration systems, True's underbar refrigeration is designed to meet and exceed the performance and reliability demands of bars and restaurants.

Back Bar Refrigerators

Refrigeration

Oversized, environmentally friendly (134A) forced-air refrigeration system for maximum performance.

Coated evaporators

Robust components

Efficient motors

LED lighting

Quality materials

Temperature

Provides ice cold products 0.5°C to 3.3°C.

Interior

Interior has stainless steel floor with 13 mm lip and heavy galvanized steel walls.

LED Lighting

Safety shielded LED interior lighting provides more even lighting throughout the cabinet and consumes less energy.

Insulation

Entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).

Direct Draw Beer Dispensers

True's direct draw beer dispensers are designed with enduring quality that protects your long-term investment.

The most advanced and robust refrigeration systems, fitted as standard in all our direct draw beer dispensers, ensure years of reliable service even in the most demanding foodservice environments.

Manufactured using the highest quality materials and components, True direct draw beer dispensers provide the most consistent temperature, and lower utility costs, delivering the best value in today's foodservice marketplace.

Direct Draw Beer Dispensers

Refrigeration

Oversized, environmentally friendly (134A) forced-air refrigeration system for maximum performance.

Coated evaporators

Robust components

Efficient motors

Stainless steel countertop

Club Top Option

Temperature

Provides ice cold products 0.5°C to 3.3°C.

Interior

Interior has stainless steel floor with 13 mm lip and heavy galvanized steel walls. Each cabinet designed to accommodate all types of beer kegs.

Insulation

Entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).

Draft Columns

77 mm diameter stainless steel insulated beer columns. Fan motors direct large volume of cold air into draft columns.

At True we pride ourselves on manufacturing the best refrigeration products in the world. But we also understand the importance of ensuring our after sales support matches the quality of our products.

All True customer support personnel are highly-trained, professional and friendly: their aim is to offer our customers exemplary after sales service and support.

Every customer enjoys a dedicated representative to handle their account personally. This ensures all customer enquiries are dealt with quickly and efficiently.

In the event you require technical support, our locally-based, True appointed service partners are able to offer prompt assistance, minimizing downtime and disruption to your operation.
